ROCKETS ON THE GREEN SHOW

BY JIM SCHULTZ

5am came early on October 27th. I had gotten everything packed into the '64 vista-cruiser the night before so just before 6am I headed out with a quick stop by McDonalds for a breakfast sandwich. The 100+ mile drive went by uneventfully and the car lived up to half of its name, *cruiser*. I arrived just before 8am and was first one there. It gave me time to clean the car after its 100 mile romp. On the way in I noticed that the 101 freeway was closed north bound and wondered if that was going to affect the turn out. As it happened we did not have the quantity at this years gathering but we made up for it in quality. We had a nice cross section of cars, from Allen Poor's beautiful F-37 coupe to a '77 442 with a rare 5 speed transmission. We had some cars show up not seen by the club before. A father & son came with their '54 88's. '54's are a seldom seen year at shows and we had two of them. As with every year each car owner gets a free lunch at Julio G's. The Mexican cuisine was delicious and would recommend it for a place to visit when in the area. Around 2pm we had the awards after the club meeting. Amazingly the newest winner was a '56 98 holiday sedan owned by John Clark. Allen Poor's F-37 coupe and Tom Moore's '50 88 club sedan were the other trophy recipients. After the show, some of us caravanned up Hayden to the pavilions as it was Oldsmobile night and we parked in club row for the evening's cruise night. It still amazes me on what shows up there on each Saturday night. I left pavilions around 9pm and was home just before 11pm. The vista-cruiser ran like a top and there are no spiders left on board after that ride home. It was an enjoyable day with friends, good food, good weather and of course our Oldsmobiles.

FYI

REMEMBERING JOHN ROCK, FORMER GM VICE PRESIDENT AND OLDSMOBILE GENERAL MANAGER Former GM Vice President and General Manager of Oldsmobile John Rock died Friday, November 16, in Hot Springs, South Dakota. Rock, known for his candor and no-nonsense style, served as Oldsmobile's general manager from May 1992 until early 1997 after serving a successful eight-year term as general manager of GMC Truck.

According to former Oldsmobile Public Relations Director Gus Buenz, who worked with Rock for many years, Rock was in every sense a unique individual. "He was truly his own man and one who continued to amaze with his intellect and perspective," said Buenz. "It was indeed a privilege to have worked with John. What a character and what a leader."

No memorial service is planned, per the wishes of the deceased. Messages of condolence can be sent to Bonnie Rock at: 28069 Cascade Rd., Hot Springs, SD, 57747.

Checker Auto Parts at 40th St. & Thunderbird is offering a 10% discount to our members. This is their commercial price. Must identify yourself as an Oldsmobile Club member to receive the discount. Only good at the 40th St. & Thunderbird location.

IS YOUR NATIONAL MEMBERSHIP CURRENT?

As you should know, all Oldsmobile Club of Arizona members are required to be members of the Oldsmobile Club of America (OCA), the national club. Once a year we have to submit a list of our members to them, to ensure that we are compliant with their rule. We will be submitting that list very soon. If your OCA membership is not current, please renew it right away. You can tell if your membership is current if you are receiving the monthly magazine Journey With Olds (JWO). If you are not receiving this magazine, then your membership has expired. Your membership expiration date is shown on the mailing label of the JWO. If we have non-compliant members we will be in jeopardy of losing our OCA charter. Please don't let that happen. Renew 2 months in advance to ensure your membership does not lapse.

IT'S TIME TO RENEW YOUR DUES

It's time to renew your membership dues. If you are married or have a Significant Other, your dues are \$24.00 for 1 year, and \$48.00 for 2 years. TIPS ON PUMPING GAS, AND SAVING MONEY, FROM AN INDUSTRY INSIDER

Tip Number One:

Go in the morning to buy or fill up your car or truck. The ground temperature is much cooler in the early morning. You may have noticed that all service stations have their storage tanks buried below ground. So, when you go early in the morning the ground is much cooler, which in turn makes the gas cooler and more dense. As the day warms up the gasoline expands, so buying in the afternoon or evening means you're not getting exactly a gallon when you pump gas.

"In the petroleum business, the specific gravity and the temperature of the gasoline, diesel and jet fuel, ethanol and other petroleum products plays an important role. A 1-degree rise in temperature is a big deal for this business. But the service stations do not have temperature compensation at the pumps."

-The "Insider"

Tip Number Two:

When going to pump gas, always allow yourself a few extra minutes so that you don't have to rush. Why? Let me explain. When you look at the gas pump, you will see that the trigger has three (3) stages: low, medium or middle, and high. In the slow stage, you should be pumping on low speed, that way you are minimizing the vapors that are created while you are pumping. All hoses at the pump have a vapor return. So, if you are pumping gas at the high stage, some of the gas that goes into your tank becomes a vapor. Most of those vapors are being sucked right back into the underground storage tank, so you are getting less worth for your money.

Tip Number Three:

One of the most important tips is to fill up when your gas tank is HALF FULL, if you're an optimist, or HALF EMPTY, if you're a pessimist. The reason for this is, the more gas you have in your tank the less air occupying its empty space. Gasoline evaporates faster than you can imagine. Gasoline storage tanks have an internal floating roof. This roof serves as zero clearance between the gas and the atmosphere, so it minimizes the evaporation.

"Unlike service stations, here where I work, every truck that we load is temperature compensated so that every gallon is actually the exact amount."

-The "Insider"

Tip Number Four:

When you arrive at the service station and you see a gasoline truck pumping into the storage tanks, DO NOT get gas at that service station. Instead, find another one close by. The reason behind this is while the gas is being delivered, it stirs up the gasoline already in the storage tanks. That means you might pick up some dirt and grime that normally settles at the bottom of the tank. That can be very bad for your car. Not to mention, you're paying for dirt.

Hope this will help you get the most value for your money.
